STATEMENT OF SENATOR MIKE ENZI, R-WY, CHAIRMAN COMMITTEE ON HEALTH, EDUCATION, LABOR & PENSIONS:

"I am looking forward to a very productive session with the HELP Committee and am excited to have Senator Richard Burr on board," said Enzi. "His service in the House reflects a strong work ethic for the people of North Carolina that will be invaluable to the Committee as we roll up our sleeves and get to work on a broad range of issues."

"During this Congress, I want to build on the past successes of the Committee as well as increase the involvement of the Subcommittees," Enzi added. "I know Senator Burr will play an important role in that effort, and I look forward to his ideas and opinions. Together, we will work to find common sense solutions to ensure that every child in America receives a quality education, that all Americans have access to affordable, quality health care, and that workers as well as their pensions are protected."
