# Title X in California

Senate Health, Education, Labor, and Pensions Committee, Democratic Staff

In California in 2015, there were **353** Title X–funded sites operated by different types of agencies. Collectively these Title X–funded sites delivered contraceptive care to **1,014,320** women in California. Title X–supported Planned Parenthood health centers served **69 percent** of these women.

## TITLE X-FUNDED SITES AND CLIENTS SERVED IN CALIFORNIA BY AGENCY TYPE

Legend: ■ Health Departments ■ Planned Parenthood ■ Federally Qualified Health Centers ■ Hospitals ■ Other

NUMBER OF SITES: Other 13, Hospitals 2, Federally Qualified Health Centers 185, Planned Parenthood 110, Health Departments 43

NUMBER OF CLIENTS: Other 27,550, Hospitals 3,050, Federally Qualified Health Centers 242,160, Planned Parenthood 704,630, Health Departments 36,930

	% of Total Sites	% of Total Clients
Health Departments	12%	4%
Planned Parenthood	31%	69%
Federally Qualified Health Centers	52%	24%
Hospitals	1%	0%
Other	4%	3%

In 2015, Title X–supported contraceptive services helped California women to **prevent 217,900 unintended pregnancies and 73,600 abortions**. Title X–funded sites in California delivered contraceptive care to 166,090 female adolescent clients (under age 20), helping them to prevent **45,600 unintended pregnancies and 13,200 abortions**.

IMPACT OF POTENTIAL THREATS TO TITLE X IN CALIFORNIA

If Planned Parenthood were excluded from Title X, all other types of Title X-funded sites in California would have to increase their contraceptive client caseloads by **228 percent** to serve the women who currently obtain contraceptive care from Planned Parenthood health centers, as illustrated below.

Impact of Excluding Planned Parenthood from Title X in California

	Title X contraceptive clients served in 2015	Projected additional clients without Planned Parenthood in Title X
Health Departments	36,930	84,030
Federally Qualified Health Centers	242,160	550,990

- Title X contraceptive clients served in 2015
- Projected additional clients without Planned Parenthood in Title X

If all Title X funds were redirected only to federally qualified health center sites that serve at least 10 contraceptive clients a year in California, those sites would have to **at least double their contraceptive client caseloads** to maintain the current reach of Title X.

For more state-specific detail on the impact of:
- excluding Planned Parenthood from Title X, see this June 2017 analysis (esp. Table 2).
- redirecting all Title X funds to FQHC sites, see this May 2017 analysis (esp. Table 5).
