

Title X in Montana

Senate Health, Education, Labor, and Pensions Committee, Democratic Staff

In Montana in 2015, there were **26** Title X–funded sites operated by different types of agencies. Collectively these Title X–funded sites delivered contraceptive care to **18,090** women in Montana. Title X–supported Planned Parenthood health centers served **43 percent** of these women.

TITLE X-FUNDED SITES AND CLIENTS SERVED IN MONTANA BY AGENCY TYPE

	% of Total Sites	% of Total Clients
Health Departments	54%	17%
Planned Parenthood	19%	43%
Federally Qualified Health Centers	19%	17%
Other	8%	24%

In 2015, Title X–supported contraceptive services helped Montana women to **prevent 3,900 unintended pregnancies and 1,300 abortions**. Title X–funded sites in Montana delivered contraceptive care to 4,300 female adolescent clients (under age 20), helping them to prevent **1,200 unintended pregnancies and 300 abortions**.

IMPACT OF POTENTIAL THREATS TO TITLE X IN MONTANA

If Planned Parenthood were excluded from Title X, all other types of Title X-funded sites in Montana would have to increase their contraceptive client caseloads by **74 percent** to serve the women who currently obtain contraceptive care from Planned Parenthood health centers, as illustrated below.

If all Title X funds were redirected only to federally qualified health center sites that serve at least 10 contraceptive clients a year in Montana, those sites would have to **at least triple their contraceptive client caseloads** to maintain the current reach of Title X.

For more state-specific detail on the impact of:

- excluding Planned Parenthood from Title X, see this [June 2017 analysis](#) (esp. [Table 2](#)).
- redirecting all Title X funds to FQHC sites, see this [May 2017 analysis](#) (esp. [Table 5](#)).
