

Impact of the Prevention and Public Health Fund in ALABAMA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Alabama has received more than \$44 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Alabama received funds for the following programs:

Alabama State Department of Public Health

- \$3,063,294 for immunization programs
- \$2,649,269 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$457,434 to prevent and control heart disease and promote school health
- \$344,103 to prevent and control diabetes and promote school health
- \$308,365 for tobacco cessation programs
- \$298,291 for epidemiology and lab capacity programs

Montgomery Area Community Wellness Coalition

- \$909,455 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

University of Alabama at Birmingham

- \$943,212 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Alabama received a total of \$8,973,423 in FY 2016. If the Prevention Fund were repealed, Alabama would lose more than \$40 million over five years.

Impact of the Prevention and Public Health Fund in ALASKA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Alaska has received more than \$31 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Alaska received funds for the following programs:

Alaska State Department of Health and Human Services

- \$1,183,701 for Immunization and Vaccines for Children Program
- \$177,522 for other immunization programs
- \$736,389 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$536,505 for epidemiology and lab capacity programs
- \$379,904 to prevent and control heart disease and promote school health
- \$158,048 to prevent and control diabetes and promote school health
- \$50,000 for tobacco cessation programs

Alaska Native Tribal Health Consortium

- \$548,152 to prevent diabetes
- \$548,151 to prevent heart disease and stroke
- \$144,225 for tobacco cessation programs

Alaska received a total of \$4,462,597 in FY 2016. If the Prevention Fund were repealed, Alaska would lose more than \$20 million over five years.

Impact of the Prevention and Public Health Fund in ARIZONA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Arizona has received more than \$52 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Arizona received funds for the following programs:

Arizona State Department of Health Services

- \$4,067,428 for Immunization and Vaccines for Children Program
- \$103,410 for other immunization programs
- \$1,852,024 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$302,858 for epidemiology and lab capacity programs
- \$295,540 for tobacco cessation programs
- \$232,490 for lead poisoning prevention
- \$570,356 to prevent and control diabetes and associated risk factors
- \$134,072 to prevent and control heart disease and associated risk factors

Intertribal Council of Arizona

- \$394,486 to prevent diabetes
- \$394,486 to prevent heart disease and stroke
- \$144,225 for tobacco cessation programs

Navajo Nation

- \$162,500 to prevent diabetes
- \$162,500 to prevent heart disease and stroke
- \$144,225 for tobacco cessation programs

North American Quitline Consortium

- \$225,000 for tobacco cessation programs

San Carlos Apache Tribe

- \$54,724 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program
- \$54,725 for tobacco cessation programs
- \$36,483 to prevent diabetes
- \$36,483 to prevent heart disease and stroke

Arizona received a total of \$9,368,015 in FY 2016. If the Prevention Fund were repealed, Arizona would lose more than \$40 million over five years.

Impact of the Prevention and Public Health Fund in ARKANSAS

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Arkansas has received more than \$35 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Arkansas received funds for the following programs:

Arkansas Department of Health

- \$2,194,246 for immunization programs
- \$1,571,823 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$588,377 to prevent and control heart disease and promote school health
- \$291,169 for epidemiology and lab capacity programs
- \$196,071 for tobacco cessation programs
- \$78,421 to prevent and control diabetes and promote school health

University of Arkansas for Medical Sciences

- \$999,882 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Arkansas received a total of \$5,919,989 in FY 2016. If the Prevention Fund were repealed, Arkansas would lose nearly than \$30 million over five years.

Impact of the Prevention and Public Health Fund in CALIFORNIA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, California has received more than \$298 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, California received funds for the following programs:

California Department of Public Health

- \$22,025,288 for immunization programs
- \$10,542,099 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$2,904,888 to prevent and control heart disease
- \$1,880,647 to prevent and control diabetes
- \$1,271,588 for tobacco cessation programs

Los Angeles County Public Health Department

- \$1,760,000 to prevent and control heart disease
- \$1,760,000 to prevent and control diabetes
- \$727,404 for epidemiology and laboratory capacity programs
- \$327,378 for immunization programs

Pasadena Public Health Department

- \$500,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

San Diego County Public Health Department

- \$1,760,000 to prevent and control heart disease
- \$1,760,000 to prevent and control diabetes

San Francisco Department of Public Health

- \$799,159 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Alta Med Health Services Corporation

- \$997,952 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

California Center for Public Health Advocacy

- \$484,389 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

California Rural Indian Health Board

- \$394,486 to prevent and control heart disease
- \$394,486 to prevent and control diabetes
- \$144,225 for tobacco cessation programs

ChangeLab Solutions

- \$204,246 for tobacco cessation programs
- \$65,000 for immunization program

Community Coalition for Substance Abuse Prevention and Treatment

- \$1,000,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Community Health Improvement Partners

- \$685,982 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Impact Assessment, Inc.

- \$304,672 for lead poisoning prevention

Mandela Marketplace

- \$500,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Operation Samahan, Inc.

- \$464,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Project Concern International

- \$500,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Public Health Foundation Enterprises, Inc.

- \$1,745,954 for epidemiology and laboratory capacity programs
- \$686,937 for immunization programs
- \$360,089 to combat healthcare associated infections

Public Health Institute

- \$977,400 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

Toiyabe Indian Health Project

- \$500,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

United Indian Health Services, Inc.

- \$325,000 to prevent and control heart disease
- \$325,000 to prevent and control diabetes
- \$144,225 for tobacco cessation programs

University of California- Los Angeles, Board of Regents

- \$1,000,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

University of California- San Diego

- \$961,500 for tobacco cessation programs
- \$369,712 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

California received a total of \$61,553,706 in FY 2016. If the Prevention Fund were repealed, California would lose more than \$300 million over five years.

Impact of the Prevention and Public Health Fund in COLORADO

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Alabama has received more than \$57 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Colorado received funds for the following programs:

Colorado Department of Public Health and the Environment

- \$3,303,680 for immunization programs

- \$713,860 to prevent and control heart disease and promote school health
- \$659,430 for epidemiology and lab capacity programs
- \$585,104 to prevent and control diabetes and promote school health
- \$386,146 to prevent lead poisoning
- \$333,405 for tobacco cessation
- \$68,760 to combat healthcare associated infections

University of Kentucky, Research Foundation

- \$329,990 for immunization programs

Kentucky received a total of \$8,137,514 in FY 2016. If the Prevention Fund were repealed, Kentucky would lose more than \$40 million over five years.

Impact of the Prevention and Public Health Fund in LOUISIANA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Louisiana has received more than \$29 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Louisiana received funds for the following programs:

Louisiana State Department of Public Health

- \$4,712,469 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$2,369,969 for immunization programs
- \$543,377 for epidemiology and lab capacity programs
- \$403,162 to prevent and control heart disease and stroke
- \$302,766 for tobacco cessation
- \$293,336 for lead poisoning prevention
- \$150,893 to prevent and control diabetes
- \$91,006 to combat healthcare associated infections

Tulane University of Louisiana

- \$146,234 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

National Network of Public Health Institutes, Inc.

- \$100,000 for tobacco cessation

Louisiana received a total of \$9,022,206 in FY 2016. If the Prevention Fund were repealed, Louisiana would lose more than \$40 million over five years.

Impact of the Prevention and Public Health Fund in MAINE

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Maine has received more than \$39 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Maine received funds for the following programs:

Maine State Department of Health and Human Services

- \$1,681,746 for immunization programs
- \$1,567,859 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$672,840 to prevent and control heart disease and promote school health
- \$641,429 for epidemiology and lab capacity programs
- \$564,624 to prevent and control diabetes and promote school health
- \$75,633 for tobacco cessation

Central Maine Community Health Cooperation

- \$313,469 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Maine received a total of \$5,517,600 in FY 2016. If the Prevention Fund were repealed, Maine would lose more than \$27 million over five years.

Impact of the Prevention and Public Health Fund in MARYLAND

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Maryland has received more than \$88 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Maryland received funds for the following programs:

Maryland State Department of Health and Mental Hygiene

- \$3,955,711 for immunization programs
- \$3,118,022 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$2,404,471 to prevent and control heart disease
- \$987,273 for epidemiology and lab capacity programs
- \$1,844,453 to prevent and control diabetes
- \$257,756 for tobacco cessation
- \$58,449 to combat healthcare associated infection

Maryland State Department of the Environment

- \$232,942 to prevent lead poisoning

Association of Public Health Laboratories

- \$3,216,132 for immunization programs

National Association of Community Health Centers, Inc.

- \$700,000 to prevent and control heart disease and stroke through the Million Hearts program
- \$200,000 for immunization programs

Maryland received a total of \$16,975,209 in FY 2016. If the Prevention Fund were repealed, Maryland would lose more than \$84 million over five years.

Impact of the Prevention and Public Health Fund in MASSACHUSETTS

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Massachusetts has received more than \$126 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Massachusetts received funds for the following programs:

Massachusetts State Department of Public Health

- \$4,210,887 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$3,680,232 through the Immunization and Vaccines for Children program
- \$97,023 for other immunization programs
- \$2,551,532 to prevent and control heart disease and stroke
- \$2,425,693 to prevent and control diabetes
- \$1,234,298 for epidemiology and lab capacity programs
- \$421,842 for lead poisoning prevention
- \$301,392 for tobacco cessation
- \$275,583 to combat healthcare associated infections

Boston Public Health Commission

- \$966,385 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

JSI Research and Training Institute, Inc.

- \$63,034 for tobacco cessation

Old Colony Y

- \$400,316 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Partners in Health

- \$994,284 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Massachusetts received a total of \$17,622,501 in FY 2016. If the Prevention Fund were repealed, Massachusetts would lose more than \$88 million over five years.

Impact of the Prevention and Public Health Fund in MICHIGAN

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Michigan has received more than \$115 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Michigan received funds for the following programs:

Michigan Department of Community Health

- \$6,113,073 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$5,476,235 through the Immunization and Vaccines for Children program
- \$195,490 for other immunization programs
- \$2,656,623 to prevent and control heart disease and stroke
- \$2,492,604 to prevent and control diabetes
- \$889,899 for epidemiology and lab capacity programs
- \$621,837 for tobacco cessation
- \$361,636 for lead poisoning prevention
- \$91,006 to combat healthcare associated infections

Inter-Tribal Council of Michigan, Inc.

- \$994,621 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Oakland University

- \$650,748 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Sault Ste Marie Tribe of Chippewa Indians

- \$97,500 to combat health disparities through the Racial and Ethnic Approaches to Community Health program
- \$97,500 for tobacco cessation
- \$65,000 to prevent and control diabetes
- \$65,000 to prevent and control heart disease and stroke

Michigan received a total of \$20,868,772 in FY 2016. If the Prevention Fund were repealed, Michigan would lose more than \$110 million over five years.

Impact of the Prevention and Public Health Fund in MINNESOTA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Minnesota has received more than \$84 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Minnesota received funds for the following programs:

Minnesota State Department of Health

- \$4,460,990 for immunization programs
- \$3,932,953 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$2,524,587 to prevent and control heart disease and stroke
- \$2,385,054 to prevent and control diabetes
- \$1,582,158 for epidemiology and lab capacity programs
- \$423,908 to prevent lead poisoning
- \$270,286 for tobacco cessation
- \$72,038 to combat healthcare associated infections

Asian Media Access

- \$994,621 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Minnesota received a total of \$16,151,974 in FY 2016. If the Prevention Fund were repealed, Minnesota would lose more than \$80 million over five years.

Impact of the Prevention and Public Health Fund in MISSISSIPPI

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Minnesota has received more than \$84 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Minnesota received funds for the following programs:

Mississippi State Department of Health

- \$2,283,375 for immunization programs
- \$2,261,069 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$497,678 to prevent and control diabetes
- \$459,195 for epidemiology and lab capacity programs
- \$188,342 for tobacco cessation
- \$136,231 to prevent lead poisoning
- \$116,374 to prevent and control heart disease and stroke

Greenwood Leflore Hospital

- \$313,107 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Mississippi received a total of \$6,255,371 in FY 2016. If the Prevention Fund were repealed, Mississippi would lose more than \$30 million over five years.

Impact of the Prevention and Public Health Fund in MISSOURI

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Missouri has received more than \$35 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Missouri received funds for the following programs:

Missouri State Department of Health and Senior Services

- \$3,362,850 for immunization programs
- \$4,029,422 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$788,144 to prevent and control heart disease
- \$392,571 for epidemiology and lab capacity programs
- \$643,988 to prevent and control diabetes
- \$386,781 for tobacco cessation
- \$366,058 to prevent lead poisoning
- \$15,244 to combat healthcare associated infections

Children's Mercy Hospital

- \$785,715 for immunization programs

Missouri received a total of \$10,770,773 in FY 2016. If the Prevention Fund were repealed, Missouri would lose more than \$50 million over five years.

Impact of the Prevention and Public Health Fund in MONTANA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Montana has received more than \$29 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Montana received funds for the following programs:

Montana State Department of Health and Senior Services

- \$1,032,403 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.

- \$473,465 for epidemiology and laboratory capacity programs
- \$311,705 to prevent lead poisoning
- \$37,849 to combat healthcare associated infections

Cabarrus Health Alliance

- \$836,147 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program

North Carolina received a total of \$17,183,464 in FY 2016. If the Prevention Fund were repealed, North Carolina would lose more than \$205 million over five years.

Impact of the Prevention and Public Health Fund in NORTH DAKOTA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, North Dakota has received more than \$16 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, North Dakota received funds for the following programs:

North Dakota State Department of Health

- \$749,105 through the Immunizations and Vaccines for Children Program
- \$826,277 for other immunization programs
- \$571,353 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$379,904 to prevent and control heart disease and stroke
- \$237,739 to prevent and control diabetes
- \$180,732 for epidemiology and laboratory capacity programs
- \$50,000 for tobacco cessation

North Dakota received a total of \$2,995,110 in FY 2016. If the Prevention Fund were repealed, North Dakota would lose more than \$15 million over five years.

Impact of the Prevention and Public Health Fund in OHIO

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Ohio has received nearly \$100 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Ohio received funds for the following programs:

Ohio Department of Health

- \$7,013,936 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$5,916,826 for immunization programs
- \$2,270,265 to prevent and control heart disease and stroke
- \$2,014,839 to prevent and control diabetes
- \$725,038 for tobacco cessation
- \$406,472 for lead poisoning prevention
- \$251,395 for epidemiology and lab capacity programs

Asian Services in Action

- \$422,123 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Children's Hospital Medical Center

- \$1,985,712 for immunization programs

Cuyahoga County Board of Health

- \$997,349 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

YMCA of Greater Cleveland

- \$986,270 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Ohio received a total of \$22,990,225 in FY 2016. If the Prevention Fund were repealed, Ohio would lose more than \$110 million over five years.

Impact of the Prevention and Public Health Fund in OREGON

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Oregon has received more than \$52 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Oregon received funds for the following programs:

Oregon State Health Division

- \$3,650,413 for immunization programs
- \$1,110,980 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$596,085 to prevent and control heart disease and stroke
- \$683,833 to prevent and control diabetes
- \$519,870 for epidemiology and lab capacity programs
- \$274,393 for lead poisoning prevention
- \$190,549 for tobacco cessation
- \$86,692 to combat healthcare associated infections

Multnomah County Health Department

- \$986,196 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Northwest Portland Area Indian Health Board

- \$425,000 to prevent and control diabetes
- \$425,000 to prevent and control heart disease and stroke
- \$144,225 for tobacco cessation

Yellowhawk Tribal Health Center

- \$59,760 to combat health disparities through the Racial and Ethnic Approaches to Community Health program
- \$59,760 for tobacco cessation
- \$39,840 to prevent and control heart disease and stroke
- \$39,839 to prevent and control diabetes

Oregon received a total of \$9,292,480 in FY 2016. If the Prevention Fund were repealed, Oregon would lose more than \$40 million over five years.

Impact of the Prevention and Public Health Fund in PENNSYLVANIA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Pennsylvania has received more than \$106 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Pennsylvania received funds for the following programs:

Pennsylvania State Department of Health

- \$7,390,984 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$5,496,774 for immunization programs
- \$822,279 to prevent and control heart disease and stroke
- \$751,669 for tobacco cessation
- \$206,676 for epidemiology and lab capacity programs
- \$194,529 to combat healthcare associated infections
- \$110,091 to prevent and control diabetes

Philadelphia Department of Public Health

- \$1,478,752 from the Immunizations and Vaccines for Children program
- \$206,994 for other immunization programs
- \$1,392,796 to prevent and control diabetes
- \$410,127 to combat healthcare associated infections
- \$1,392,796 to prevent and control heart disease and stroke
- \$297,810 for epidemiology and laboratory capacity programs
- \$291,972 for lead poisoning prevention

Temple University

- \$465,876 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

University of Pennsylvania

- \$150,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

YMCA of the USA

- \$1,388,146 for immunization programs

Pennsylvania received a total of \$21,060,125 in FY 2016. If the Prevention Fund were repealed, Pennsylvania would lose more than \$110 million over five years.

Impact of the Prevention and Public Health Fund in RHODE ISLAND

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Rhode Island has received more than \$33 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Rhode Island received funds for the following programs:

Rhode Island State Department of Health

- \$2,429,558 to prevent and control heart disease and stroke
- \$2,321,657 to prevent and control diabetes
- \$1,098,871 through the Immunizations and Vaccines for Children program
- \$736,138 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$416,551 for epidemiology and lab capacity programs
- \$367,145 to prevent lead poisoning
- \$327,035 for other immunization programs
- \$300,000 to combat healthcare associated infections
- \$50,837 for tobacco cessation

Rhode Island received a total of \$8,047,792 in FY 2016. If the Prevention Fund were repealed, Rhode Island would lose more than \$40 million over five years.

Impact of the Prevention and Public Health Fund in SOUTH CAROLINA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, South Carolina has received more than \$65 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, South Carolina received funds for the following programs:

South Carolina State Department of Health and Environmental Control

- \$2,829,789 through the Immunizations and Vaccines for Children Program
- \$157,329 for other immunization programs
- \$2,535,091 to prevent and control diabetes
- \$2,081,996 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$1,760,000 to prevent and control heart disease and stroke
- \$776,173 to combat healthcare associated infections
- \$310,742 for epidemiology and laboratory capacity programs

Catawba Indian Nation Head Start

- \$59,942 for tobacco cessation
- \$59,941 to combat health disparities through the Racial and Ethnic Approaches to Community Health program
- \$39,961 to prevent and control heart disease and stroke
- \$39,960 to prevent and control diabetes

South Carolina received a total of \$10,650,924 in FY 2016. If the Prevention Fund were repealed, South Carolina would lose more than \$50 million over five years.

Impact of the Prevention and Public Health Fund in SOUTH DAKOTA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, South Dakota has received more than \$16 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, South Dakota received funds for the following programs:

South Dakota State Department of Health

- \$932,243 for immunization programs
- \$535,387 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$540,661 to combat healthcare associated infections
- \$334,639 to prevent and control heart disease and stroke
- \$218,595 for epidemiology and lab capacity programs
- \$140,815 to prevent and control diabetes
- \$50,000 for tobacco cessation

Great Plains Tribal Chairmen's Health Board

- \$325,000 to prevent and control diabetes
- \$325,000 to prevent and control heart disease and stroke
- \$144,225 for tobacco cessation

Great Plains Tribal Chairmen's Health Board

- \$60,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health Program
- \$60,000 for tobacco cessation
- \$40,000 to prevent and control diabetes
- \$40,000 to prevent and control heart disease and stroke

South Dakota received a total of \$3,746,565 in FY 2016. If the Prevention Fund were repealed, South Dakota would lose more than \$10 million over five years.

Impact of the Prevention and Public Health Fund in TENNESSEE

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Tennessee has received more than \$57 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Tennessee received funds for the following programs:

Tennessee State Department of Health

- \$4,438,360 for immunization programs
- \$2,689,306 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$1,395,702 to combat healthcare associated infections
- \$704,561 to prevent and control diabetes and promote school health
- \$665,682 for epidemiology and laboratory capacity programs
- \$237,682 to prevent lead poisoning
- \$16,216 to prevent and control heart disease and stroke

Tennessee State Office of the Governor

- \$143,336 for immunization programs

Meharry Medical College

- \$451,430 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

United and Southeastern Tribes, Inc.

- \$424,999 to prevent and control diabetes
- \$424,999 to prevent and control heart disease and stroke
- \$144,225 for tobacco cessation

Vanderbilt University Medical Center

- \$1,204,797 for immunization programs

Tennessee received a total of \$12,941,295 in FY2016. If the Prevention Fund were repealed, Tennessee would lose more than \$60 million over five years.

Impact of the Prevention and Public Health Fund in TEXAS

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Texas has received more than \$150 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Texas received funds for the following programs:

Texas Department of State Health Services

- \$13,709,350 for immunization programs
- \$6,288,485 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$1,216,377 for tobacco cessation
- \$620,249 to prevent and control heart disease and stroke
- \$447,110 to combat healthcare associated infections
- \$376,476 for epidemiology and laboratory capacity programs
- \$262,135 to prevent and control diabetes and promote school health

Houston City Health and Human Services Department

- \$2,482,170 for immunization programs
- \$614,814 for epidemiology and laboratory capacity programs
- \$342,898 to prevent lead poisoning

San Antonio Metropolitan Health District

- \$1,878,093 for immunization programs

Texas Children's Hospital

- \$785,715 for immunization programs

Texas received a total of \$29,023,872 in FY 2016. If the Prevention Fund were repealed, Texas would lose more than \$150 million over five years.

Impact of the Prevention and Public Health Fund in UTAH

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Utah has received more than \$49 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Utah received funds for the following programs:

Utah State Department of Health

- \$2,431,768 to prevent and control heart disease and stroke
- \$2,310,773 to prevent and control diabetes
- \$2,219,323 for immunization programs
- \$1,499,882 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$735,924 to combat healthcare associated infections
- \$608,561 for epidemiology and laboratory capacity programs
- \$73,071 for tobacco cessation

Utah received a total of \$9,879,302 in FY 2016. If the Prevention Fund were repealed, Utah would lose nearly \$50 million over five years.

Impact of the Prevention and Public Health Fund in VERMONT

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Vermont has received more than \$18 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Vermont received funds for the following programs:

Vermont State Department of Health

- \$209,442 to prevent and control diabetes and promote school health
- \$372,151 to prevent and control heart disease and promote school health

Vermont Agency of Human Services

- \$932,203 for immunization programs
- \$423,511 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$377,393 for lead poisoning prevention
- \$297,230 for epidemiology and lab capacity programs
- \$265,583 to combat healthcare associated infections
- \$50,000 for tobacco cessation

Vermont received a total of \$2,927,513 in FY 2016. If the Prevention Fund were repealed, Vermont would lose more than \$10 million over five years.

Impact of the Prevention and Public Health Fund in VIRGINIA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Virginia has received more than \$68 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Virginia received funds for the following programs:

Virginia State Department of Health

- \$3,341,888 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$4,203,051 for immunization programs
- \$1,474,904 to prevent and control heart disease and stroke
- \$1,937,277 to prevent and control diabetes
- \$1,096,064 to combat healthcare associated infections
- \$392,599 for epidemiology and laboratory capacity programs
- \$421,369 for tobacco cessation

Academic Pediatric Association

- \$853,752 for immunization programs

The Balm in Gilead

- \$500,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Boat People S.O.S., Inc.

- \$700,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

George Washington University

- \$500,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health program

Virginia received a total of \$15,420,904 in FY 2016. If the Prevention Fund were repealed, Virginia would lose more than \$70 million over five years.

Impact of the Prevention and Public Health Fund in WASHINGTON STATE

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Washington state has received more than \$91 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Washington state received funds for the following programs:

Washington State Department of Health

- \$4,009,643 through the Immunizations and Vaccines for Children Program
- \$266,113 for other immunization programs
- \$2,507,950 for tobacco cessation
- \$1,549,477 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$1,910,253 to prevent and control diabetes and promote school health
- \$1,050,000 to combat healthcare associated infections
- \$968,699 to prevent and control heart disease and promote school health
- \$424,776 for epidemiology and lab capacity programs
- \$224,554 for lead poisoning prevention

Seattle Children's Hospital

- \$785,715 for immunization programs

University of Washington

- \$314,998 for immunization programs

Washington state received a total of \$14,012,178 in FY 2016. If the Prevention Fund were repealed, Washington state would lose more than \$70 million in funds over the next five years.

Impact of the Prevention and Public Health Fund in WEST VIRGINIA

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, West Virginia has received more than \$34 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, West Virginia received funds for the following programs:

West Virginia State Department of Health

- \$1,393,345 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$1,176,981 for the Immunization and Vaccines for Children Program
- \$121,685 for other immunizations programs
- \$294,177 for epidemiology and lab capacity programs
- \$425,000 to combat healthcare associated infections
- \$197,732 to prevent and control diabetes and promote school health
- \$395,409 to prevent and control heart disease and promote school health
- \$145,390 for tobacco cessation programs
- \$187,665 for the West Virginia behavioral risk factor surveillance system
- \$196,480 for the West Virginia childhood lead poisoning prevention project

West Virginia received a total of \$4,533,864 in FY 2016. If the Prevention Fund were repealed, West Virginia would lose more than \$20 million over five years.

Impact of the Prevention and Public Health Fund in WISCONSIN

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Wisconsin has received more than \$73 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Wisconsin received funds for the following programs:

Wisconsin Department of Health Services

- \$3,705,181 for immunization programs
- \$3,031,233 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$1,068,311 to combat healthcare associated infections
- \$776,769 to prevent and control heart disease and stroke
- \$634,884 to prevent and control diabetes
- \$570,703 for epidemiology and lab capacity programs
- \$485,612 for lead poisoning prevention
- \$315,152 for tobacco cessation

Great Lakes Inter-Tribal Council, Inc.

- \$425,000 to prevent and control diabetes
- \$425,000 to prevent and control heart disease and stroke
- \$144,225 for tobacco cessation

National AHEC Organization

- \$1,041,959 for immunization programs

Red Cliff Tribe

- \$60,000 to combat health disparities through the Racial and Ethnic Approaches to Community Health program
- \$60,000 for tobacco cessation
- \$40,000 to prevent and control diabetes
- \$40,000 to prevent and control heart disease and stroke

Wisconsin received a total of \$12,824,029 in FY 2016. If the Prevention Fund were repealed, Wisconsin would lose more than \$60 million over five years.

Impact of the Prevention and Public Health Fund in WYOMING

*Senate Health, Education, Labor & Pensions Committee Democrats &
House Committee on Energy and Commerce Democrats*

The Affordable Care Act established the Prevention and Public Health Fund (Prevention Fund) to expand and sustain national investments in prevention and public health programs. Since 2010, Wyoming has received more than \$11 million through the Prevention Fund.

In 2017, the Prevention Fund will invest nearly \$1 billion in critical public health programs across the country for community-based prevention, immunizations, outbreak preparedness and response, and more. The TrumpCare bill would eliminate the Prevention Fund, decimating lifesaving public health investments in every state.

In FY 2016, Wyoming received funds for the following programs:

Wyoming State Department of Health

- \$660,950 through the Immunizations and Vaccines for Children Program
- \$551,647 from the Preventive Health and Health Services Block Grant. The Block Grant gives states flexibility to use the funding in ways that fit their communities and their unique needs.
- \$372,151 to prevent and control heart disease and stroke
- \$276,821 for epidemiology and laboratory capacity programs
- \$232,860 to prevent and control diabetes
- \$110,565 for healthcare associated infections

Wyoming received a total of \$2,204,994 in FY 2016. If the Prevention Fund were repealed, Wyoming would lose more than \$11 million over five years.
