

Title X in Minnesota

Senate Health, Education, Labor, and Pensions Committee, Democratic Staff

In Minnesota in 2015, there were **40** Title X–funded sites operated by different types of agencies. Collectively these Title X–funded sites delivered contraceptive care to **61,280** women in Minnesota. Title X–supported Planned Parenthood health centers served **71 percent** of these women.

TITLE X-FUNDED SITES AND CLIENTS SERVED IN MINNESOTA BY AGENCY TYPE

	% of Total Sites	% of Total Clients
Health Departments	35%	4%
Planned Parenthood	38%	71%
Hospitals	18%	23%
Other	10%	2%

In 2015, Title X–supported contraceptive services helped Minnesota women to **prevent 13,200 unintended pregnancies and 4,500 abortions**. Title X–funded sites in Minnesota delivered contraceptive care to 10,470 female adolescent clients (under age 20), helping them to prevent **2,900 unintended pregnancies and 800 abortions**.

IMPACT OF POTENTIAL THREATS TO TITLE X IN MINNESOTA

If Planned Parenthood were excluded from Title X, all other types of Title X-funded sites in Minnesota would have to increase their contraceptive client caseloads by **243 percent** to serve the women who currently obtain contraceptive care from Planned Parenthood health centers, as illustrated below.

If all Title X funds were redirected only to federally qualified health center sites that serve at least 10 contraceptive clients a year in Minnesota, those sites would have to **increase their contraceptive client caseloads by a factor of five or more** to maintain the current reach of Title X.

For more state-specific detail on the impact of:

- excluding Planned Parenthood from Title X, see this [June 2017 analysis](#) (esp. [Table 2](#)).
- redirecting all Title X funds to FQHC sites, see this [May 2017 analysis](#) (esp. [Table 5](#)).
