

Title X in North Carolina

Senate Health, Education, Labor, and Pensions Committee, Democratic Staff

In North Carolina in 2015, there were **120** Title X–funded sites operated by different types of agencies. Collectively these Title X–funded sites delivered contraceptive care to **111,010** women in North Carolina. Title X–supported Planned Parenthood health centers served **12 percent** of these women.

TITLE X-FUNDED SITES AND CLIENTS SERVED IN NORTH CAROLINA BY AGENCY TYPE

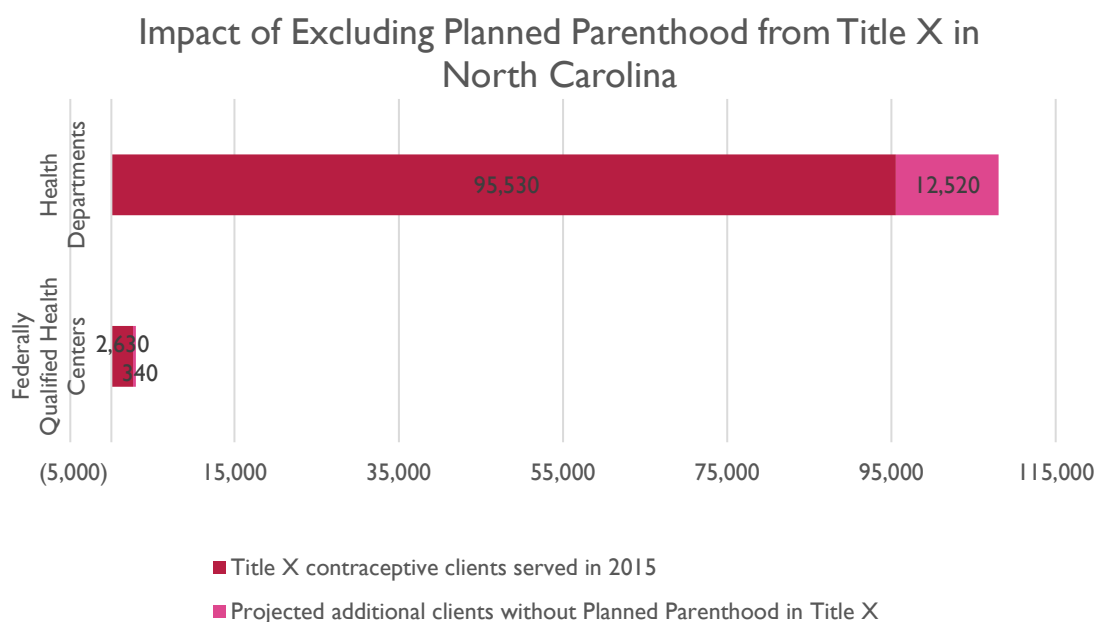

In 2015, Title X–supported contraceptive services helped North Carolina women to **prevent 23,800 unintended pregnancies and 8,000 abortions**. Title X–funded sites in North Carolina delivered contraceptive care to 14,470 female adolescent clients (under age 20), helping them to prevent **4,000 unintended pregnancies and 1,200 abortions**.

IMPACT OF POTENTIAL THREATS TO TITLE X IN NORTH CAROLINA

If Planned Parenthood were excluded from Title X, all other types of Title X-funded sites in North Carolina would have to increase their contraceptive client caseloads by **13 percent** to serve the women who currently obtain contraceptive care from Planned Parenthood health centers, as illustrated below.

If all Title X funds were redirected only to federally qualified health center sites that serve at least 10 contraceptive clients a year in North Carolina, those sites would have to **increase their contraceptive client caseloads by a factor of five or more** to maintain the current reach of Title X.

For more state-specific detail on the impact of:

- excluding Planned Parenthood from Title X, see this [June 2017 analysis](#) (esp. [Table 2](#)).
- redirecting all Title X funds to FQHC sites, see this [May 2017 analysis](#) (esp. [Table 5](#)).
